The Denali Alpenglow is made possible in part through generous donations of funds from the Alaska Natural History Association. ARAMARK, Inc. the park concessionaire donates funds and provides for shipping. ARAMARK, Inc. operates the Denali Park Hotel and the Shuttle System, as well as the Wildlife and Natural History Tours.

## Emergencies—Dial 911

Be prepared to give your location as Denali National Park. Call to report accidents, fires, or life-threatening emergencies. Since there are no phones west of park headquarters, emergencies in those areas should be reported to rangers on patrol, campground hosts, or to staff at ranger stations or Eielson Visitor Center.

## Planning For the Future

Providing access to national parks and preserving them requires careful planning. A new plan is underway that will update and expand Denali's 1976 Backcountry Management Plan. It will address types and levels of use, resource protection, access, and the visitor experience in the backcountry. Denali is also implementing other plans for the entrance area, road corridor, and south side of the park. These call for improving and expanding visitor opportunities and facilities while continuing to protect the park's natural,

historic, and cultural resources. A number of projects will be in place in the near future including the construction of a new mercantile and shower house facility near Riley Creek Campground and trail improvements. For information about any of our park planning efforts, contact the park by writing to Denali National Park and Preserve, P.O. Box 9, Denali Park, Alaska 99755, by emailing us at [denali\\_info@nps.gov](mailto:denali_info@nps.gov), calling (907) 683-2294, or visiting our website at [www.nps.gov/dena/home](http://www.nps.gov/dena/home).
